Process Map

Building a Link Network

Acquisition

-Buy PR Domains or Developed Sites

- -ebay
- -sitepoint & digital point
- -tdnam.com
- -pool.com
- -snapnames.com
- -Buy Developed Blogs and Sites
 - -look at blog and site directories

RULES

- -No Adsense
- -Different Registrar Profile then on money site
- -Different Host then money site
- -Link out to authority sites
- -Use Multiple Profiles for registrar and hosts.
- -DO NOT LINK TO EACH OTHER

MANAGEMENT

-I use Traffic King Pro exclusively to develop, post and manage networks.

Posting

- -Manually
- -Automatically
- -Out Source
- (links are best inside blocks of text)

Site Development

- -CMS sites including Wordpress and Joomla (I use these most)
- -Search Engine Friendly Directories
- -Article Directories
- -Blogs

Register

- -One registration profile for each hosting account.
- -Godaddy now supports multilpes profiles in one account.

- -Start out with 5 different shared hosting accounts.
- -Put no more then 10-20 addon domains in one account. The less the better.

Hosting
